- **Analytics & Reporting:** Campaign Performance Tracking, A/B Testing, KPI Dashboards (Tableau, Power BI), Google Analytics, Reporting Automation
- **AI & Tools:** AI-assisted Ad Creatives & Video Production, Python for Marketing Analytics, SAP, CRM Systems, Excel

PROFESSIONAL EXPERIENCE

Digital Marketing Specialist | Complast Industries Limited | June *2023 – Present*

- Managed and grew **company social media accounts** across platforms, developing content calendars and engaging posts that boosted brand visibility and follower engagement.
- Launched and managed **multi-channel paid advertising campaigns** on Google and Meta, applying **A/B testing** to optimize ad creatives, audience targeting, and budget allocation — driving a **10% increase in sales margins**.
- Built and automated **marketing reporting pipelines** (Tableau, Power BI), reducing manual reporting time by **40%** and enabling real-time campaign performance tracking for leadership.
- Created **written marketing content** including blog posts, product descriptions, and competitive analysis reports used to inform campaign strategy and drive data-driven decisions.
- Leveraged **AI tools** and Python-based predictive models to forecast campaign demand and optimize marketing spend, **reducing costs by 15% annually**.
- Built and maintained **email marketing dashboards and automated reporting** distributed across 5 departments, streamlining communication of marketing KPIs.
- Conducted **competitor analysis and pricing research** that directly shaped Google and Meta ad strategy, improving campaign relevance and ROI.

- Trained **15+ team members** on analytics and campaign reporting tools, fostering a data-driven marketing culture across the organization.

Digital Marketing Volunteer | Christian Mission Aid | Jan *2023 – May 2023*

- Created **donor-ready marketing content, reports, and dashboards** that supported successful grant submissions and improved stakeholder communication outcomes.
- Managed social media data collection using **mobile platforms (KoboToolbox)**, streamlining content reporting and cutting campaign turnaround time by **30%**.
- Developed targeted content and trend analysis on key program indicators, recommending marketing interventions that **improved project efficiency by 12%**.
- Produced **data-driven statistical reports and visual content** for donor audiences, demonstrating impact and supporting continued funding.
- Awarded **Volunteer of the Year 2023** for outstanding contributions to evidence-based content and marketing programs.

Digital Marketing Intern | Kenyatta National Hospital | Sept *2021 – Dec 2021*

- Designed **departmental KPI dashboards** tracking operational marketing metrics, improving visibility of performance indicators for hospital leadership.
- Conducted **financial data modeling** and reporting that contributed to **cost-saving strategies** in hospital operations and communications.
- Cleaned and validated **large datasets from EMR and billing systems**, improving data integrity and generating accurate performance reports.
- Analyzed admission and service data to identify trends and optimize resource communication strategies across departments.

EDUCATION

Bachelor of Technology in Applied Statistics | The Technical University of Kenya | 2018 – *2022*
